

Why Choose Saint Francis?

Saint Francis Hospital is the largest Catholic hospital in New England with licensure for 617 beds and 65 bassinets. As a member of Trinity Health Of New England, Saint Francis is dedicated to exceeding the expectations of our patients and families by providing world-class service in a progressive, people-centered, compassionate health care environment. Our institution is affiliated with the University of Connecticut Colleges of Pharmacy and Medicine and Saint Joseph College of Pharmacy.

Saint Francis Hospital is proud to be the only hospital in Connecticut recently named among the nation's 100 Top Hospitals by IBM Watson Health™.

Ambulatory Services

Saint Francis Hospital and Medical Center offers several clinics, including primary care and a variety of specialty clinics dedicated to serving the underserved populations of Greater Hartford.

Training Sites Include:

- Gengras Adult Medical Clinics
- Gengras Adult Surgical Clinics
- Saint Francis Hospital Anticoagulation Service
- Burgdorf Medical Clinics

Our organization has more than 15 years of experience embedding pharmacists in Ambulatory Services. The Gengras Internal Medicine Practice is the 1st hospital-based clinic in CT to receive national recognition as a Patient-Centered Medical Home.

Pharmacy residents have the opportunity to practice at the top of their license while managing a wide spectrum of disease states. Rotation structures vary from an interdisciplinary team approach to independent medication management under collaborative drug therapy management agreements.

While required rotations offer a solid foundation in Ambulatory Care, the program also offers opportunities for growth in multiple specialties areas based on resident interest.

The Residency Program

Our PGY2 pharmacy residency program builds on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions. Upon completing our program, residents will:

- Be eligible for board certification
- Gain experience precepting APPE students
- Demonstrate the advanced clinical skills necessary to provide direct patient care for various ambulatory populations

Program Requirements

- Complete or facilitate an accredited teaching and learning certificate program
- Complete one IRB-approved research project
- Present a 1-hour ACPE-approved CE
- Present at regional and national pharmacy conferences

Qualifications

- Completion of an ASHP-accredited PGY1 residency
- Eligible to attain licensure in the state of Connecticut by September 30 of the residency program year

Program Structure

Required Rotations:

- Orientation
- Adult Medicine I and II
- Anticoagulation Service
- Infectious Disease/Immunology
- Practice Management
- Research Project
- Teaching and Education
- Transitions of Care I and II

Elective Rotations:

- Academia
- Population Health
- Flexibility for development of other electives based on resident interest
